Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

Newly submitted claim 39 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: it is directed to a method of assessing functionality of a heart valve. The invention previously examined in claims 32-38 were directed to a position sensor that could be used in a different and patentably distinct method such as a method of determining the location of a catheter in a body.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 39 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Specification

The disclosure is objected to because of the following informalities: Applicant should update the status of the continuing data. Appropriate correction is required.

Claim Objections

Claims 42-45 are objected to because of the following informalities: It is unclear as to what further structural limitation has been set forth. The claims appear to merely set forth the intended use of the position sensor. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

> A person shall be entitled to a patent unless –
>
> (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 40-46 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith et al (5,515,853). The claims are directly readable on Smith et al which disclose

ultrasound position sensors that can be implanted in various part of the body such as the heart and the brain. With respect to claim 33, attachment to the myocardium inherently includes a connection mechanism for fixing the sensor to the heart. With respect to claims 34-37, the sensor is capable of being placed anywhere in the body of the patient. With respect to claim 38, the transducers are made of a material that allows them to be visualized in an image while in the patient's body thereby providing a fiducial marker.

Response to Arguments

Applicant's arguments filed 4/28/03 have been fully considered but they are not persuasive. It should be noted that applicant failed to provide any arguments regarding why the previous rejection was improper.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
